Professional Summary

Passionate Junior Front-End Developer, Software Development and Business Information Systems graduate, specialized in crafting responsive, high-performance web applications using React.js, Next.js (App Router), TypeScript, and Tailwind CSS. Possesses foundational Full-Stack experience across the MERN stack (MongoDB, Express, Node.js) with real-world product delivery. Complemented by analytical and client-facing backgrounds that enhance code precision, problem-solving, and cross-team communication.

Technical Skills

Frontend Development: React.js, Next.js (App Router), TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, shadcn/ui, GSAP / Motion, Responsive Design

Backend & Architecture: Node.js, Express.js, RESTful APIs, MongoDB, Mongoose, Sanity CMS (Headless), JWT Authentication

Tools & Practices: Git, GitHub, Vercel Deployment, Postman, VS Code, npm/pnpm, UI/UX Wireframing

Featured Projects

UNBREN Studio | *Next.js, TypeScript, Tailwind CSS, shadcn/ui, Sanity CMS* **2026**

- Co-founded and developed the official digital agency platform focused on delivering bespoke Web Design, Development, and Branding services for commercial clients.
- Built a high-converting UI architecture using Next.js and reusable shadcn/ui primitives to deliver smooth page transitions and responsive layouts.
- Integrated headless CMS capabilities to dynamically structure client case studies, portfolio showcases, and service offerings.

UNBREN Events | *Next.js, TypeScript, Tailwind CSS, Motion/GSAP* **2026**

- Designed and implemented a visual showcase and client acquisition platform for event photography and videography production services.
- Engineered interactive media galleries, service booking touchpoints, and fluid scroll-triggered UI elements to maximize visual engagement.
- Optimized asset delivery pipelines and Core Web Vitals to ensure fast load times across high-resolution image portfolios.

LearningHub | *MERN Stack (MongoDB, Express, React, Node), JWT, Tailwind CSS* **2026**

- Architected a full-stack e-learning MVP application developed as an academic Dissertation Project for the Master's Degree.
- Engineered custom JWT-based authentication with role-based authorization, complete with a dedicated Admin Panel for full CRUD course management.
- Built a custom-engineered video player, real-time course progress tracking system, and a gamified badge reward mechanism.

Work Experience

Concentrix **Mar. 2026 – Aug. 2026**

AML Analyst (Anti-Money Laundering) *Iași, Romania*

- Conducted comprehensive investigations on high-risk accounts, analyzing transactional payment patterns and identifying associated entities.
- Identified financial crime typologies, authored formal case narratives, and filed regulatory reports to relevant Financial Intelligence Units (FIUs).

Generali **May 2023 – Feb. 2026**

Insurance Agent / Client Advisor *Barlad, Romania*

- Consulted individual and corporate clients, evaluating risk profiles to tailor comprehensive insurance and financial packages.
- Executed contract negotiations, streamlined client portfolio management, and consistently achieved key performance indicators.
